EAA Chapter 506

December 13, 2008

Meeting Agenda:

6:00 PM

Christmas Party

Location:

Chapter 506 Clubhouse

Breakfast Crew:

None

Presenter:

None

From the Tower:

By Joe Mancusi

First: The Christmas Party Starts at 1800 hours (6 pm) on the 13th instead of our morning meeting. Turkey, ham, and soft drinks supplied by 506. Please bring a covered dish, we need a variety of sides and deserts. The guys bring “guy gifts” and the gals bring “gal gifts” around \$15 dollars. Those who participate can select a gift from under the tree or “grab” one from someone else. Turns out to be pretty fun.

Second. WT Bailey is to be our new Newsletter editor. He is a pilot with a strong interest in the Chapter. I know he will do a good job for us. Please contact him with “Short stories” or news items at baileypipetool@yahoo.com.

Third. Gotta talk flying. A lot is made of the benefits of getting a new rating in conjunction with a biannual as good experience and training. I agree with this idea of course, but you do not have to go that far.

Some how in my early flying I had checkouts in a large variety of aircraft. Many Piper, Beech, and Cessna aircraft. High wing and low wing, Nose wheel or tail wheel. I believe all that dual instruction during all these checkouts has helped me a lot thru the years. You will find that each MAKE has its own characteristics as well as each MODEL.

A checkout in a new aircraft can be done with a biannual, if you wish. So any time you need to get current or get a biannual try to get a checkout in a new aircraft. It may cost a bit more but it will be fun and educational on many levels.

Back in the day (when I was lucky) I would fly my 120, gliders, and the Scout tow plane in one day. Now I fly only two, a 1947 and a 2007!

From the Editor:

With this issue being one of transition, please read it carefully. Pay close attention to names, dates, spelling, etc. Report any errors to the editor.

Thanks

November Meeting Minutes

By **Gary Winter**

The Breakfast Report:

An incredible breakfast was prepared by Helen & Jack Schultz and Heide Milbauer, with help from Roxanna Mancusi. The order of the day was scrambled eggs, sausage patties, pancakes, grapefruit, wonderful blueberry coffee cake with blueberry compote. WOW!!! Did you see Jack flipping those pancakes???

Mmmmmm delicious!!!!

Meeting Start:

President Joe Mancusi opened the meeting at 9:00 o'clock with a total of 29 in attendance.

Guests:

Rene' Gonzales from Fuquay-Varina who is an aspiring pilot and works in aircraft maintenance.
Spence & Jean Lyon from Hacienda Heights, CA.

Treasurer's Report:

The treasurer's report shows that we have \$1372.21 in our checking account with all bills paid.

Old Business:

Check your newsletter for openings in the breakfast schedule and meeting coordinator schedule. Feel free to jump right in there and add your name.

New Business:

Our next meeting will be our Christmas meeting, Dec. 13th at 6:00 PM. Helen Schultz introduced the question whether we should give White Elephant gifts or play games or have a sing-along. Those in attendance were not in favor of a sing-along, and games were not very popular, either. An informal vote followed a brief discussion, and we will be participating in the White Elephant gift event with gifts priced between \$10-\$15. Gifts should be marked girl or boy, man or woman, male or female, Dick or Jane, or something like that!!!

Helen Schultz is bringing the turkey and Roxanna Mancusi is bringing the ham. Everyone else please bring a covered dish, which would include hot dishes, side dishes, salads, and desserts. If everyone would email me gjwinter1@nc.rr.com with what you are bringing, we'll send out an email with the number of planned dishes in each category.

Election of Officers

President Joe passed out ballots for the election of officers for the coming year. All the incumbents campaigned tirelessly and were reelected with only a moderate amount of opposition. W. T. Bailey accepted the position of Newsletter Editor for the coming year.

Adjournment:

As there was no other business, a motion to adjourn and a second was accepted at 9:30 am.

Post Flight Debriefing:

Norman Smit gave an excellent presentation about the history of skydiving and the evolution of the modern parachute. Norman has jumped out of approximately 40 different aircraft, has close to 700 jumps, has a total of about 10 hours of free fall time, and is still actively jumping. I, for one, thought it was very, very interesting. Good job, Norman. We really enjoyed it.

CFI Flight Review

By Lucky Charlie

"Hello, this is Gilberto Guitarte; can you check me out in your Legend Cub?" Sure", I replied. "I notice you don't have our local Jinks accent. From whence doth you cometh?"

"I grew up in Buenos Aires, Argentina and I'm working for a world-wide security company in Fuquay-Varina. Can we meet a Kennebec? I'll show you some pictures of my father's super Cubs. He runs an FBO in Buenos Aires."

Upon arriving at Kennebec, Gilberto and I swapped security documents to determine which one of us is the terrorist. After completing the PAVE check list, we flew around the patch a few times and continued flying for the past two years.

Gilberto mentioned he had a daughter that would like to fly but his father from Buenos Aires insisted on flying with the instructor before subjecting his granddaughter, Victoria, to any young instructor.

After meeting Victoria at Kennebec, I declared. "O.K. then." We agreed to meet at Kennebec the following Friday. After the introductory formalities of meeting Gilberto's father, we proceeded to inspect the 2 Lucky Charlie.

The senior Guitarte took the front seat to analyze my instructing skills.

After several trips around the patch, he declared the Cub was in good flying order, but he had reservations about the "P" in PAVE. The "E" (external pressures) in PAVE persuaded me to buy lunch for everyone.

After lunch I got to fly with Victoria.

That's my story and I am sticking to it.

Most Amazing "Feet":

This young woman is truly an inspiration. Jessica Cox from Tucson Arizona, born without either arm has earned her Sport Pilot Certificate. Jessica is an Able Flight scholarship winner. She passed her check ride on October 10th and flew her Ercoupe to the Copperstate Fly-In, her first fly-in. How does she do it you say, well she uses her feet. That's right her feet. Left throttle, right yoke. Amazing. To learn more about the Able Flight scholarship, visit www.AbleFlight.org. To learn more about this truly amazing pilot, visit www.RightFooted.com.
